Northumberland InfoNet

Who are InfoNet

The Northumberland InfoNet is the central research and information unit for Northumberland. The InfoNet supports information needs of its partners and other organisations working in and for Northumberland.

Established in 2001 as a pilot project the InfoNet works to a research programme agreed by a management board made up of the two principal funding partners: Northumberland Strategic Partnership (NSP) and Northumberland County Council.

In addition to the work programme the InfoNet run an enquiry service.

Where can I get more Information?

You can access information online at:
